

## Guidance about paperless campaign

We would like to appreciate for your continued patronage of SHOWA products.

Originally, the instruction manual was included with the product, but some products will be QR coded from April 2020 due to the environmental purification campaign.

The position of the QR code is printed on the right side of the product name sticker attached to the outer box as shown in the photo below:

We apologize for the inconvenience, but we hope that you can read the QR code and check it with your smartphone or tablet.

For details on how to read the QR code, please refer to "How to read QR code" on our website, <https://www.showatool.com/english/>

Thank you very much for your understanding.

Best regards,

SHOWA TOOL CO., LTD.
